Merrick B. Garland  
U.S. Department of Justice  
950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

Attorney General Merrick B. Garland,

March 3, 2023

I am writing to you to notify you of routine falsification of government records in USPS through scanning an item as delivered before it was actually delivered and the resulting consumer fraud of (\$26.35 in this specific instance) as well as malfeasance and possible obstruction of justice by the USPS Board of Governors and the USPS OIG. I ask your assistance in rectifying these problem.

The details of the falsified delivery record on April 15, 2021 and the resulting consumer fraud of \$26.35 are contained in the attached copy of correspondence of November 17, 2021 to the USPS IG finally delivered via my U.S. Representative Marc Veasey as well as the response from the USPS OIG from Ms. Kelly Delaney dated June 7, 2022.

In particular I am concerned that the USPS OIG is not meeting the statutory requirements of INSPECTOR GENERAL ACT OF 1978, Section 4, which states in part that the "Inspector General shall report expeditiously to the Attorney General whenever the Inspector General has reasonable grounds to believe there has been a violation of Federal criminal law." Specifically, federal crimes of falsifying government records (a crime under 18 U.S. Code Section 1001 (a) (1)) are routinely routed to local USPS management without any report to the Attorney General when they are the nefarious 'Stop the Clock' tracking scans, a misleading label for the crime of scanning a package as delivered prior to delivery to falsify quality measures and defraud customers.

The USPS OIG in fact refers all reports of 'Stop the Clock' scans to local USPS management even though it is claimed that the hot-line workers consider 'each allegation on a case-by-case basis'. This suggests there is an undocumented verbal 'guidance' to refer all problems with 'tracking and delivery' to local USPS management. This guidance is undocumented because it constitutes an illegal order to violate the IG Act requirement to report all federal crimes to the Attorney General.

Contrary to the claims of Ms. Kelly Delaney that I am seeking criminal prosecution for the falsified records, I am actually requesting that they be referred to the Attorney General and Justice Department where an unbiased determination of the appropriate remedy can be made. It would be absurd to suggest that every USPS employee who ever did a 'Stop the Clock' scan be incarcerated. However, the senior management who encouraged and supported the practice might be candidates for dismissal and even fines to the degree that they profited from their illegal criminal actions.

I have also attached a copy of the August 3, 2022 correspondence to the USPS Board of Governors, finally delivered via my U.S. Representative Marc Veasey as well as the response from the USPS Government Relations Representative dated December 22, 2022 which referred the matter to the Council of the

Inspectors General on Integrity and Efficiency (CIGIE) which has not taken any apparent action concerning the matter.

I am an Officer of the United States as a U.S. Regular Army Captain with an Honorable Discharge and so am keenly aware of the difficulties of dealing with illegal orders. I hope that you will be able to navigate the complex ramifications of illegal orders.

I also have come to appreciate that the foundation of our democracy and government of law is civil servants identifying and challenging illegal orders and not permitting falsified records. Indeed, the prompt elimination and correction of these illegal 'Stop the Clock' scans and the resulting defrauding of many thousands of postal customers could be a first step in restoring the failing trust of Americans in their government be it Readiness Reports (in the military), Proof of Delivery (from the USPS) or election results.

Specifically, I am asking that the Department of Justice investigate the falsified delivery record in my case and arrange for my account with USPS be credited with \$26.35 after correcting the falsified delivery records. Further, I ask that you insure that after some future date, perhaps September 30, 2023, all falsified delivery records which are reported to the USPS OIG be reported to the Department of Justice where they will be investigated and an appropriate remedy taken.

I am also copying the USPS Postmaster General, USPS IG, USPS Board of Governors (via Chairman Martinez) and U.S. Representative Veasey on this correspondence. As I have previously had difficulties in getting any response, I request that you confirm receipt of this request to myself at carrbp@gmail.com.

Thanks for your assistance with this matter and for your service to the United States.

Brian P. Carr
