Dear Sir / Madam:

I am writing to request your assistance in correcting malfeasance in the Council of the Inspectors General on Integrity and Efficiency (CIGIE). I am forwarding an email from the CIGIE with attachment which states they will taking no action in one of the two requests I had sent to them.

I am seeking that the council abide by its charter and insure that all Inspector Generals (IG) and staff under the different IGs are aware of the requirement to report all federal crimes to the Attorney General (AG) or logically, the Department of Justice (DoJ), whenever they believe a federal crime has been committed within their purview / department(s) which they monitor. See the INSPECTOR GENERAL ACT OF 1978, Section 4, which states in part that the "Inspector General shall report expeditiously to the Attorney General whenever the Inspector General has reasonable grounds to believe there has been a violation of Federal criminal law."

It appears the United States Postal Service (USPS), Department of State (DoS) and Department of Homeland Security (DHS) IG's have each concluded that they can decide not to prosecute certain federal crimes, particularly those crimes which have been integrated into the monitored departments normal procedures and which would be greatly disruptive to the monitored department to correct. They do this by refusing to report these crimes to the DoJ.

However, just because criminally illegal processes are integrated into the monitored department does not make them immune from prosecution. The decision to prosecute resides solely with the DoJ and failure of the IG to report federal crimes is at least malfeasance and could be construed to be obstruction of justice (another federal crime). Of course I am only asking that DoJ direct the departments to report all plausible allegations of federal crimes to DoJ even if they do not have sufficient resources to investigate the allegation and can not confirm that the crime is likely, much less prosecutable.

Further, it appears that the IGCIE has gone from a council which was intended to develop and enforce the highest standards adherence to the law to become a group that supports and encourages criminal behavior in their monitored departments and shares ideas and methods for supporting the criminal behavior. This could be construed as going beyond simple obstruction of justice to violating federal RICO criminal statutes.

The enforcement of lawful statutes and constitutional rights is at the discretion of the Department of Justice (DoJ) based on available resources, but this discretion is secondary to the federal courts and their ability to provide relief to injured parties. However, I believe that the best resolution can be reached by DoJ working directly with the agencies. If federal courts are brought into this matter, it is almost certain the DoJ will be called on to assist but the time table and direction of the corrections will be set by the courts for better or worse.

I ask that you route this request to the appropriate department for the requested assistance and provide me contact information to get the status of the request. As stated above, there are no requirements that you provide the requested assistance, but it is my hope that these issues can be resolved without involving the courts. Needless to say, if the DoJ chooses not to address my concerns, my only avenue for relief will be through the courts.

I have already copied the DoJ on the previous complaints referred to the CIGIE and am also copying the other recipients of the previous emails.

Your attention to this matter is appreciated.
